Perma-Dry Basement Waterproofing:

Thank you so much for the wonderful job you and your crew did in waterproofing my basement. We have had several heavy rainfalls since you did the job, and my basement is bone-dry.

Your crew should be commended for their excellent workmanship, and for keeping things neat and clean while they worked. I appreciate that your workers hung a clear plastic tarp around the work area to keep dust at a minimum; they also covered the steps leading into the basement to protect them.

It has been about a month since the work was done, and already my whole house smells clean. The musty, damp odor that used to come from the basement is completely gone.

Again, thank you for fixing my leaky basement. Your waterproofing system definitely works, and it looks good too.

Sincerely,

A handwritten signature in cursive script that reads "Philip Cangemi".
